

General Table of Contents

Detailed Table of Contents *ii*

List of “Classic” Special Orthopaedic Tests *ix*

Introduction & How to Use this Book p1

Introductory Lectures i1

Chapter I: Ankle & Foot 1

Chapter II: Knee 33

Chapter III: Hip & Innominate 79

Chapter IV: Comprehensive
Examination of the Spine 137

Chapter V: Sacroiliac Joint & Pelvis 149

Chapter VI: Lumbar Spine 203

Chapter VII: Thoracic Spine & Ribs 267

Chapter VIII: Cervical Spine 309

Chapter IX: Thoracic Outlet 387

Chapter X: Shoulder p 403

Chapter XI: Elbow 447

Chapter XII: Wrist & Hand 477

References 519/ (r1)

Detailed Table of Contents

Introduction

How to use this book p1
How this book is comprehensive p3
When Learning too much is not enough p4

Introductory Lectures

The Spirit of Assessment i1
The Procedure for Assessment i7
Pain i13
Observations i24
Overview of Assessment Protocol i25
Intake: Forms, Interviewing & Case History Taking i28

- Case History Form i29

Pain and Impairment i33

- Active Listening i39

Rule Outs i42
Range of Motion Testing i42
Differential Tissue Testing i45
Assessment & Treatment Planning i46
Postural Assessment i48

- Muscle Balance and Posture i48
- Common Postures i52
- Postural Examination i54
- Palpating Landmarks i60
- Rotations i69

Gait Analysis(Classic) i75
Gait Analysis: Alternative View i80
Charting & Recording i86
Spinal Motion: Structure & Function i99

Chapter I ANKLE & FOOT Page 1

Clinical Implications of Anatomy & Physiology 3
Case History (Specific Questions) 5
Observations 5
Rule Outs 7
Active Free Range Of Motion (AF-ROM) 9
Passive Relaxed Range Of Motion (PR-ROM) 11
Active Resisted Range of Motion (AR-ROM) 13
Special Tests 16

- Differential Muscle Testing 16
- Talar-Tilts 19
- Anterior Draw Test 20
- Wedge Test 21

Thompson's Test 22
Morton's Neuroma 22
Tinel's Sign 23
Pulse Testing 23
Homans' Sign 24

Metatarsal-Phalangeal & Phalangeal Joints 25

- AF-ROM 25
- PR-ROM 26
- AR-ROM 28

Ankle & Foot Conditions/Pathologies 29

Chapter II KNEE 33

Clinical Implications Of Anatomy & Physiology 35
Case History (Specific Questions) 40
Observations 41
Rule Outs 45

- Fractures 47
- Wipe Test for minor effusion 47
- Fluctuation Test for moderate effusion 49
- Patellar Tap Test for major effusion 50

Active Free Range Of Motion (AF-ROM) 51

- Quadriceps Inhibition Test 53

Passive Relaxed Range Of Motion (PR-ROM) 55
Active Resisted Range Of Motion (AR-ROM) 59
Special Tests 60

- Differential Muscle Testing 60
- Modified Helfet Test 63
- Valgus Stress Test 64
- Varus Stress Test 65
- Apley Distraction Test 65
- Anterior Draw Test 66
- Posterior Draw Test 68
- Lachman's Test 68
- Apley Compression Test 70
- McMurray's Meniscus Test 71
- Patellar Apprehension Test 75
- Patellofemoral Compression Testing 75
- Clark's Test 76
- Noble's Compression Test 77
- Bounce Home Test 77

Chapter III: HIP & INNOMINATE 79

Clinical Implications of Anatomy & Physiology 80

Case History (Specific Questions)	89
Observations	90
Rule Outs	98
Active Free Range Of Motion (AF-ROM)	103
Passive Relaxed Range Of Motion (PR-ROM)	108
Testing Joint Play	112
Active Resisted Range Of Motion (AR-ROM)	114
Special Tests	118
Differential Muscle Testing	118
Thomas Test	123
Ober's Test	126
Piriformis Test	128
Trendelenburg's Test	130
Scouring Test	131
FABER Test	132
Ely's Test	133
Leg Length Discrepancy Test	133
Stork Test	135

Chapter IV Comprehensive Examination of Spine 137

Comprehensive Structural Examination of the Spine & Pelvis 139

1. Standing Postural Views 140
2. Checking Symmetry Of Landmarks 141
3. Checking Symmetry During AF-ROM 142
4. Assessing Postural Stability 144
5. Checking Postural Symmetries & AF-ROM Sitting 145
6. Checking Postural Symmetries While Supine 145
7. Checking Rotation In The Body 147
8. Checking Landmarks Prone 148

Chapter V: Sacroiliac Joint & Pelvis 149

Note to Reader 151

Chapter Organization 152

Part I: Clinical Implications of Anatomy & Physiology 153

- Anatomical Structures & Landmarks 153
- S.I. Joints and Impairments 154
- Terminology & Types of Movements 155
- Some Points to Consider 156
- Definitions of Sacroiliac Movements 157

What Stabilizes the S.I. Joints? 158

Testing Within the General Examination of the Spine 162

Part II: Innominate Motions & Impairments 164

Movements of the Lumbopelvic Girdle 164

Unilateral and Bilateral Pelvic Tilts 167

Physiological Motions of the Innominates during Gait 168

Symptoms of Innominate Impairments 168

Part III: Testing For Innominate Impairments 169

Observation & Inspection 170

Testing for Leg Length Discrepancy 172

Assessing for Inflares & Outflares 173

Placing Innominate Orientation in Context Of the Trunk & Head 174

Stork Test 175

Standing Flexion Test 176

Standing Extension Test 177

Palpation & Inspection of Sacral Motion 178

 Four-Point Test 178

 Spring Test 179

 Gapping Test 179

Pelvic Challenge for Pubic Symphysis Impairments 180

Interpreting Results of Motion Testing & Palpatory Findings 181

Part IV: Introduction to Sacral Dysfunctions 182

Gait: The Innominates & Sacroiliac Joints 182

Physiological Motions Where the Sacrum Can Become Fixed 183

Non-Physiological Motions Where the Sacrum Can Become Fixed 184

Other Non-Physiological Impairments Of The S.I. Joints 185

Part V: Testing for Sacral Dysfunctions 186

Observations 186

Seated Flexion Test 186

Prone Palpation of Sacrum 187

Prone Extension (“Sphinx”) Test	187	They Affect the Lower Back	218
Chart of Findings for Extension Test	188	Lumbar Curves & L3: The Source of Most Impairments & Dysfunction within The Lumbar Spine	220
Summary of Findings for Sacral Torsions	188	Rule Outs	222
Presentation of Pain Experienced By Client with Torsion Lesions	189	Exceptions for Range of Motion (ROM) Testing & Use of Motion Palpation Testing	223
Sacral Shears, Summary of Findings	189		
Bilaterally Nutated Or Counter-Nutated Sacrum, with Summary of Findings	190		
 Part IV: Orthopaedic Assessment of the Sacroiliac Joints	192	Active Free Range of Motion (AF-ROM)	224
Rule Outs	192	Measuring Amount of Lumbar flexion	225
Differential Muscle Testing	193	Pain on Flexion	226
Special Tests	197	AF Flexion with Over-Pressure	227
Compression Test of S.I. Joints	197	Extension	228
Posterior Displacement Test	198	Pain on Extension	228
Anterior Displacement Test	198	Sidebending	229
FABER Test	199	Pain on Sidebending	229
Ganslen’s Test (<i>Caution</i>)	199	AF Sidebending with Over Pressure	230
 Appendix	200	Hip-Drop Test	231
Gait & Sacral Motion	200	Lumbar Rotation	232
Walking/Running	200	Over Pressure to lumbar Rotation	233
Rules of Movement for the Sacrum & L5	202	Motion Testing for Facet Joint	
 Chapter VI: Lumbar Spine	203	Dysfunctions in the Lumbar Spine	234
Clinical Implications of Anatomy & Physiology	205	Palpation in Neutral	235
Fryette’s Rules of Spinal Motion	206	Basic Rules & Findings of Motion	
Lumbar Intervertebral Disc (IVD)	208	Testing in the Spine	236
Note on Causes of Low Back Pain	208	Palpating in Flexion & Extension	236
The IVD & Low Back Pain	208	Findings, Explanations & Examples	238
Levels of Degenerative Disc Disease	209	Palpatory Findings Chart	239
Suspected Sources of Intermittent & Chronic Low Back Pain	210	Alternative Motion Palpation	
Are X-rays, CT Or MRIs Really Better Than Hands-On Testing?	211	Testing in Prone	240
Facet Joint Dysfunction & Pain	212	A Common Clinical Finding:	
Group & Segmental Impairments	213	The Disappearing Scoliosis	241
Comprehensive Examination	215	Lumbar Curves & Segmental Dysfunctions	242
Case History (Specific Questions)	216	Passive Relaxed Range Of Motion	
Observations	216	Introductory Note	242
Common Postures & How		Passive Range of Motion	243
		Insight – Assessing Lumbopelvic Motion in Supine	245
		Joint Mobilization	246
		Resisted Isometric Testing & Strength Testing	249
		Special Tests	251

Note on Differential Muscle Testing	251
Testing of the Lumbar Spine –	
Note on Orthopaedic Testing	251
Group 1 – General Neurological Testing	252
Straight Leg Raise Test	
for Neurological Signs	252
Well Leg Raise	254
Slump Test	254
Bowstring Sign	255
Valsalva’s Test	256
Hoover’s Test	256
Group 2 – Specific Neurological Tests	257
Myotome Testing	257
Dermatome Testing	260
Deep Tendon Reflexes	263
Excluded Classic Tests	265
Femoral Nerve Stretch (Nachlas Test)	
Quadrant Test (Kemps’ test)	
Milgram’s Test	

Motion Testing of the Lower T- Spine	286
Motion Testing of Sidebending	287
Joint Mobilization Testing	289
Active Resisted Range of Motion	292
Palpation of Ligaments of the Thoracic Spine	295
Thoracic Spine Neurological Symptoms	296
Introduction to the Ribs	
Musculature & Joints	297
Palpation of First Rib	299
Palpation of Second Rib	300
The Sternomanubrial Joint & Its Palpation	301
The Sternoclavicular Joint & Its Palpation	302
General Motion of the Ribs & a Quick	
Scanning of Rib Motions	303
Possible Findings during Testing	304
Palpation of Rib Motion	305

Chapter VIII: Cervical Spine 309

Clinical Implications of Anatomy & Physiology	311
Sub-occipital Recti Muscles	
& Eye Movements	311
Definitions & Rules of Motion	
for the Cervical Spine	312
Clinical Considerations & More	
on the OA & AA Joints	
More on Anatomy of the Upper Quadrant	314
The Lower Quadrant	315
Presentation of Pain & Segmental	
or Group Dysfunctions	316
<i>Insight – Migraines can be a Pain</i>	
<i>in the Neck</i>	318
Comprehensive Examination	319
Case History (Specific Questions)	321
Observations	321
Upper Cross Syndrome	323
Light Inspection Palpation	324
Rule Outs	324
Shoulder	324
Temporal Mandibular Joint	325

Chapter VII: Thoracic Spine & Ribs 267

Clinical Implications of Anatomy & Physiology	269
Fryette’s Rules of Spinal Motion	269
Motion impairments	270
Thoracic Intervertebral Disc	270
“Rules of Three” for Land-marking T-Spine	271
Comprehensive Examination	272
Observations	274
Note on Testing Range of Motion	276
<i>Insight - Isolating Thoracic Spine</i>	
<i>from Rest of Spine: What To Do?</i>	276
Active Free Range Of Motion (AF-ROM)	277
Notes on Scoliosis	278
Passive Relaxed Range of Motion	280
Testing End-of-Range Motion of Ribs	281
Motion Palpation of the Upper T-Spine	282
Basic Rules & Findings of Motion	
Testing in the Spine	282
Review of Findings & What	
They Mean	284

Vertebral Artery Tests 326	Insight - Impact of Extended, Rotated, & Sidebent on Arteries, Veins & Nerves 363
Active Free Range of Motion (AF-ROM) p.328	Valsalva's Test 364
<i>Insight - Contribution to Flexion by the Upper Cervical & Lower Cervical Spine</i> 328	Swallowing Test 364
<i>Insight – Observing OA Joint Impairment</i> 329	Tinel's Sign At The Neck 365
Motion Palpation Testing of the Cervical Spine 331	Bakody's Sign 365
Motion Palpation Testing of the Occipito-Atlantal (OA) Joints 332	Introduction to Specific Neurological Testing 366
First Method 333	Dermatome Testing 368
Second Method 334	Sensory Testing Of the Face 369
Third Method 335	Peripheral Nerve Testing 370
Diagonal Glides 336	Myotome Testing 371
Motion Palpation Testing of the Atlanto-Axial (AA) Joints 337	Motor Testing of Peripheral Nerves 373
Calculating ROM Loss in the AA Joint, v.s. from Lower Cervical Joints 339	Upper Limb Tension Testing (ULTT) 376 (See Thoracic Spine chapter, TOS Testing)
<i>Insight – Rotated C1 Impairment</i> 339	Deep Tendon Reflex (DTR) Testing 376
Alternate Hand Positioning for Testing of AA Joint 340	Pathological Nerve Impairment Testing 378 Spastic Paralysis Versus Flaccid Paralysis 378
Motion Palpation of Lower Cervical Spine 341	Temporal Mandibular Joint Testing: Introduction 379
Joint Mobilizations 341	<i>Insight - Chewing: More Than Just Opening & Closing the Jaw</i> 380
What Type of Lesions are We Finding with Lateral Translations 344	Active-Free Range of Motion Testing 381
<i>Insight – Further Comments On Translation Movements</i> 344	Passive Relaxed Range of Motion & Joint Mobilization for TMJ 384
Discovering Which Side is Impaired 345	<u>Chapter Nine: Thoracic Outlet 387</u>
<i>Insight – Don't Make Assumptions</i> 346	Clinical Implications of Anatomy & Physiology 389
<i>Insight – What We may have Seen in AF-ROM</i> 349	Observations Prior To Specific TOS Testing 392
Summary of Testing the Cervical Spine by Translations 350	Rule Outs 393
Other Impairments and Red Flags 351	Thoracic Outlet Tests 394
Passive Relaxed Range of Motion 352	Adson's Test & Variations 394
Active Resisted Range of Motion .356	<i>Insight - Travell's Variation, and the Halstead Manoeuvre</i> 395
<i>Insight – Shortfalls of Some Orthopaedic Testing of the Cervical Spine</i> 357	Costoclavicular Syndrome Test 395
Special Tests 358	Pectoralis Minor Syndrome Test 396
Compression Test 358	Cervical Rib 397
Decompression Test 359	Introduction to Upper Limb Tension Tests (ULTT) 397
Quadrant Testing 360	Cautions & Considerations 398
Lower Quadrant Test 361	General ULTT 399
Spurling's Test 362	Median Nerve Bias ULTT 400

Radial Nerve Bias ULTT 401
Ulnar Nerve Bias ULTT 402

Chapter X: Shoulder 403

Clinical Implications Of Anatomy & Physiology 405
Case History (Specific Questions) 407
Observations 408
Rule Outs 411
Insight – Why we need to Test both Sides Bilaterally 412
Active Free Range Of Motion 413
 Scapulothoracic Articulation 416
 Apley's Scratch Test 417
Passive Relaxed Range of Motion 418
 Assessing the Acromioclavicular
 & Sternoclavicular Joints 420
 Joint Play Inspection of the -
 Glenohumeral Joint 421
 Sternoclavicular Joint 423
 Acromioclavicular Joint 424
 Scapula 425
Three Interrelated Motion Tests for
 the Scapula & Glenohumeral Joint 426
Active Resisted Range of Motion 429

Special Tests 432
 Differential Muscle Testing 432
 Yergason's Test 438
 Speed's Test 439
 Supraspinatus Tendonitis Tests 440
 Empty Can Test 440
 Hawkins-Kennedy/Impingement Test 441
 Apprehension Sign/Crank Test 441
 Winging Scapula Test 442
 Acromioclavicular Shear Tests 442

Shoulder Muscle Length Testing 443
Shoulder Pathologies 445

Chapter XI: ELBOW 447

Elbow Chapter Overview 448
Clinical Implications Of Anatomy & Physiology 449
Case History (Specific Questions) 451
Observations 451
Rule Outs 452

Active Free Range Of Motion 453
Passive Relaxed Range Of Motion 454
 Joint Play Inspection for the Elbow 456
Active Resisted Range Of Motion 458
Special Tests 460
 Differential Muscle Testing 460
 Ligamentous Stability Tests 466
 Valgus Stress Tests 466
 Varus Stress Tests 467
Tests For Epicondylitis 468
 Tendonitis vs. Tendonosis 468
 Lateral Epicondylitis/Tennis Elbow 469
 Medial Epicondylitis/Golfer's
 or Pitcher's Elbow 470
Tests for Nerve Compression Syndromes 471
Ulnar Nerve Tinel's Sign at Elbow 471
Ulnar Nerve Stretch Test at Elbow 471
Pronator Teres Syndrome Test
 or Anterior Interosseous Syndrome 472
Compression of the Median Nerve at
 the Ligament of Struthers Test 472
Supinator Radial Nerve Syndrome Test 473
Tinel's Sign for Radial Nerve At Elbow 473
Source Of Neurological Symptoms Not Found? 474
Pathologies and Conditions of the Elbow 475

Chapter XII: Wrist & Hand 477

Wrist & Hand Chapter Overview 478
Clinical Implications of Anatomy & Physiology 479
Case History (Specific Questions) 480
Observations 481
 Observing, Inspecting and Palpating 482
Rule Outs 485
 Neurological Issues 486
Active Free Range of Motion 487
 Capsular Patterns of Restriction
 & Position of Rest 487
Passive Relaxed Range Of Motion 488
 Joint Play Inspection of the Wrist 489
Active Resisted Range Of Motion 490

Special Tests 493
Differential Muscle Testing the Wrist 493
De Quervain's Syndrome (Finkelstein's Test) 497
Flexors Digitorum Tendinopathy
(Mouse Hand) 497
Intersection Syndrome 498

Conditions of the Phalanges (The Fingers) 498
Fracture Of The Scaphoid 498
Extensor Expansion Test (Bunnel-Littler Test) 499
Ligamentous Tests of MCP, PIP & DIP Joints 499
Skier's Thumb 499
Trigger Finger 500

Nerve Compression Syndromes at the Wrist 500
Tests for Median Nerve Impingement -
Tinel's Sign & Phalen's Tests 501
Motor Testing for the Median Nerve -
Pinch Test 502
Tests for Ulnar Nerve Impingement -
Ulnar Nerve Tinel's Sign 502
Frommet's Sign/Test 503

Vascular Compression Tests at the Wrist
Allen's Test at the Wrist
for Ulnar and Radial Arteries 504

Appendix A:
General Testing of the Hand & Fingers 505

Appendix B:
Testing Of Fingers & Thumb 510
Active Free Range of Motion 510
Passive Relaxed Range Of Motion 513
General Joint Mobilization
Testing 512
Active Resisted Range Of Motion
of the Thumbs and Fingers 514

References r1 (519)

“Classic” Orthopaedic Tests

- Acromioclavicular Shear Tests 442
Adson’s Test 394
Adson’s Test Variation *Halstead Manoeuvre* 395
Adson’s Test Variation *Travell’s Variation* 395
Allen’s Test at the Wrist 504
Ankle Ligament Tests – *see Talar Tilts* 19
Anterior Displacement Test of the Hip 198
Anterior Draw Test for the Ankle 20
Anterior Draw Test for the Knee 66
Apley Compression Test 70
Apley Distraction Test 65
Apley’s Scratch Test 417
Apprehension Sign/Crank Test 441
Bakody’s Sign 365
Bounce Home Test 77
Bowstring Sign 255
Bunnel-Littler Test 499
Cervical Rib 397
Clark’s Patellar Test *Excluded** 76
Compression Test for the Cervical Spine 358
Compression Test of S.I. Joints 197
Costoclavicular Syndrome Test 395
De Quervain’s Syndrome (Finkelstein’s Test) 497
Decompression Test for the Cervical Spine 359
Ely’s Test 133
Empty Can Test 440
Excluded Classic Tests - Lumbar 265
Extensor Expansion Test (Bunnel-Littler Test) 499
FABER Test 132, 199
Femoral Nerve Stretch/Nachlas Test *Excluded** 265
Finkelstein’s Test 497
Fracture of the Scaphoid 498
Ganslen’s Test (Caution) 199
Golfer’s Elbow 470
Hawkins-Kennedy/Impingement Test 441
Hoover’s Test 256
Intersection Syndrome 498
Kemps’ test for the Lumbar Spine *Excluded** 265
Lachman’s Test 68
Lateral Epicondylitis/Tennis Elbow 469
Leg Length Discrepancy Test 133
Lower Quadrant Test Cervical Spine 361
McMurray’s Meniscus Test 71
Medial Epicondylitis/Golfer’s/ Pitcher’s Elbow 470
Milgram’s Test *Excluded** 265
Modified Helfet Test 63
Morton’s Neuroma 22
Nachlas Test *Excluded** 265
Noble’s Compression Test 77
Ober’s Test 126
Patellar Apprehension Test 75
Patellofemoral Compression Testing 75
Pectoralis Minor Syndrome Test 396
Phalen’s Tests 501
Piriformis Test 128
Pitcher’s Elbow 470
Posterior Displacement Test of the Hip 198
Posterior Draw Test for the Knee 68
Quadrant Testing 360
Scouring Test 131
Shoulder Impingement Test 441
Skier’s Thumb 499
Slump Test 254
Speed’s Test 439
Spurling’s Test 362
Stork Test 135
Straight Leg Raise Test
Supraspinatus Tendonitis Tests 440
Swallowing Test 364
Talar-Tilts (Ankle Ligament Tests) 19
Thomas Test 123
Thompson’s Test 22
Tinel’s Sign at the Ankle 23
Tinel’s Sign at the Elbow 471
Tinel’s Sign at the Neck 365
Tinel’s Sign at the Wrist 501
Trendelenburg’s Test 130
Trigger Finger 500
Valgus Stress Test Elbow 466
Valgus Stress Test Knee 64
Valsalva’s Test: *lumbar* 256; *cervical* 364
Varus Stress Test Elbow 467
Varus Stress Test Knee 65
Wedge Test 21
Well Leg Raise 254
Winging Scapula Test 442
Yergason’s Test 438

**Excluded* tests are still described, but are not recommended for use with clients. However, they are still taught to students as their clients may have had them done with other health care practitioners. Reasons for exclusion are given for each in the text.
